Watermelon Feta Salad

As I was going thru some magazines I ran across this recipe and thought it sounded refreshing and would be a nice change to traditional summer salads. Not sure about how the combinations of flavors would work, I mentioned it to our daughter Jenn and she told me that not only had she eaten it, but it was fabulous! Not sure how much stock to put into a source that's almost 9 months pregnant and eats everything in sight! But, if you like all the ingredients, I think you will love it too!

Ingredients

¼ c lime juice
¼ cup chopped fresh mint
¼ c minced chives
3 T olive oil
10 cups cubed watermelon
8 oz. crumbled feta cheese

Directions

In a large bowl, whisk together lime juice, mint, chives, and olive oil. Add cubed watermelon, tossing to coat. Gently stir in feta cheese. Cover and chill until ready to serve.

Makes 8 to 10 servings.

Enjoy!
