

# HINIKER **C-PLOW**

8000 SERIES

30-inch tall, high curve, high-density polyethylene moldboards are dent-resistant and corrosion-free. Snow flows easily for more efficient plowing.

**Super-bright** quad halogen headlights have up to twice the power of typical sealed beam lamps.

Pinch-free pivot point is 9 inches above the surface providing protection from higher obstacles such as curbs and parking barriers.

Long-lasting cast ductile-iron skid shoes.

The high-tensile steel superstructure of the moldboard provides exceptional resistance to bending and bowing, for extra heavy-duty applications. 10 laser-cut steel ribs add exceptional strength.

## **Move More Snow FASTER**

The Hiniker C-plow offers all of the heavy-duty performance of a conventional plow plus the added versatility of a high performance backdrag plow. Plow loading docks, residential driveways and congested parking areas faster than ever. The patented Hiniker C-Plow blade actually converts from a conventional plow into a backdrag plow with the push of a button, letting you remove snow quickly and easily from garage aprons, curbs, loading docks, and tight corners. Then touch a button again to flip the blade upright and push the snow away.

- **Exclusive high pivot-point trip-edge**
- **Super-bright quad halogen lights**
- **Converts from a conventional plow to a backdrag plow with the push of a button**

The compact joystick control puts full control of all plow functions in the palm of your hand.

**High-clearance** split trip-edges operate independently of one another, reducing stress and twisting forces on the plow.

**PUSH**

**PULL**

## C-LOW Specifications:

MODEL	8802	8902
BLADE WIDTH	8'	9'
BLADE HEIGHT	30"	
MOLDBOARD SURFACE	¼" HMW poly	
VERTICAL RIBS	10	
COMPRESSION TRIP SPRINGS	4	
PLOW WIDTH @ 30° ANGLE	83"	93"
TOP CUTTING EDGE (HIGH CARBON 1084 STEEL)	¼" x 4"	
LOWER CUTTING EDGE (HIGH CARBON 1084 STEEL)	¾" x 6"	
TRIP PIVOT POINT HEIGHT	9"	
WEIGHT (NET OF TRUCK MOUNTED HARDWARE)	800 lbs.	835 lbs.

**PUT SNOW IN ITS PLACE**
